

HEX-A-GONE REVOLUTION™

RACK MARK FREE BARREL TRIVALENT CHROMIUM

COMPLIANT CHEMISTRIES
HYDRO
HYPRO
HIGH PERFORMANCE COATINGS

Tedious and inefficient are two of the most common complaints when processing difficult to rack parts for decorative chrome applications. Pavco's Hex-A-Gone™ Decorative Barrel Trivalent Chromium is a revolutionary process that will transform your finishing operation. Find efficiencies in your shop with the realization of bulk processing and reduced labor while maintaining rack quality in an environmentally friendly decorative trivalent chromium.

FEATURES:

- Eliminate rack marks on parts
- Color values similar to chloride trivalent chrome
- Superior color compared to tin-cobalt and tin-nickel
- Hardness similar to chloride trivalent chrome
- Improved thickness distribution
- Excellent covering power
- Corrosion resistance comparable to CrVI
- Easier to waste treat than hexavalent chromium
- Compatible with existing barrel equipment
- Easy to control by analysis
