

NICLIPSE™ C

INCREASED PRODUCTIVITY PLATING

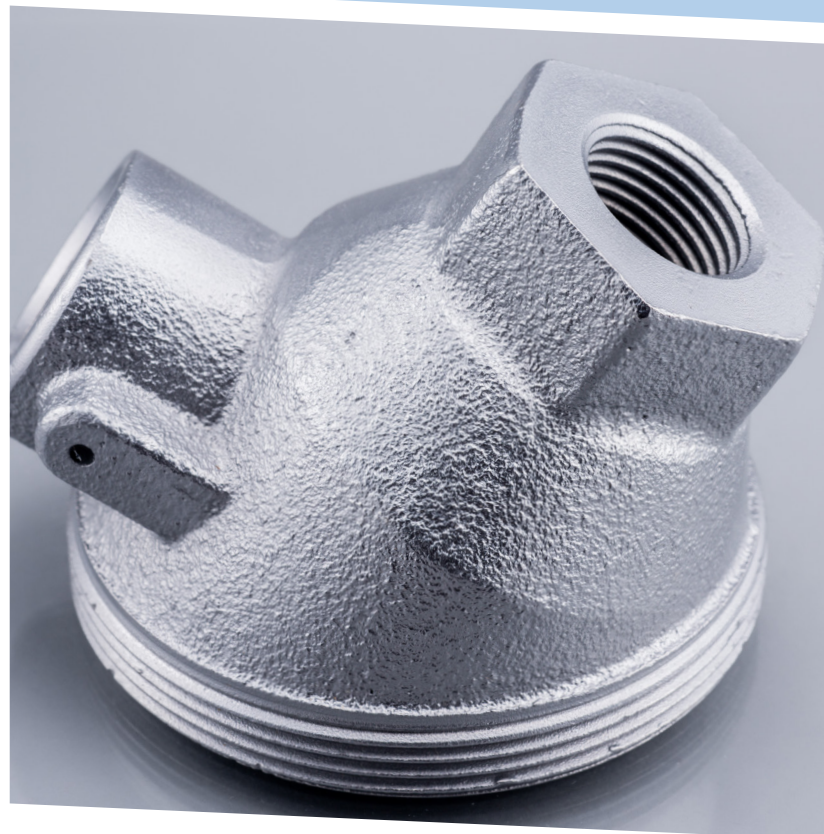

COMPLIANT CHEMISTRIES
HYDRO
HYPRO
HIGH PERFORMANCE COATINGS

Formulated from the same technology platform as Niclipse™, Niclipse™ C is modified for use over cast iron substrates offering exceptional corrosion resistance, covering power, and compatibility with clear, yellow or black passivates. Niclipse™ C will deliver fully bright deposits for both rack and barrel applications.

**90% PLATING EFFICIENCY
VERSUS STANDARD ALKALINE
EFFICIENCY OF 45-50%**

FEATURES:

- Excellent alloy uniformity
- Plates hardened steel, malleable and cast metals without a strike
- Delivers a highly ductile deposit
- Maintains integrity after high temperature exposure
- Ease of waste treatment without carbonate build up
- Capable of plating controlled alloys for both 6-8% nickel requirements and 10-15% applications with simple operating adjustments
- Also available in Non-Boric system
